

Socket Welding Machine II

—SKC-S110 II—

Description:

Usage:

Suitable for PE, PPR pipe socket connecting. Pre-set the welding parameters, choose the tubing diameter to select heating time automatically. The combining design accords with standard DVS2208.

Major Parameter:

Mode NO.: SHS20-32 II、SHS20-63 II、SHS75-110 II

The heating plate routine set temperature: 260℃

Working voltage: 220V, 50HZ
