

Socket Welding Machine

—SKC-S63 I —

Description:

Usage:

Suitable for PE, PPR pipe socket connecting. Pre-set the welding parameters, choose the tubing diameter to select heating time automatically. It's equipped with welding time end alarm hint. The combining design accords with standard DVS2208.

Major Parameter:

Mode NO.: SHS20-32 I 、 SHS20-63 I 、 SHS75-110 I

The heating plate routine set temperature: 260°C

Working voltage: 220V, 50HZ
