

## Socket Welding Machine

—SKC-S63—

### Description:

#### Usage:

Suitable for PE, PPR pipe socket connecting. Pre-set the welding parameters, choose the tubing diameter to select heating time automatically. Original control system from South Korea, it has the T2 and T5 equipment, with welding time end alarm hint. The combining design accords with standard DVS2208.

#### Major Parameter:

Mode NO.: SHS20-32、SHS20-63、SHS75-110

The heating plate routine set temperature: 260℃

Working voltage: 220V, 50HZ
